Subject: Re: latest agenda for both USVI and PR -- Integrated Pest management conferences

I worked on the agenda with our staff. Phil Landrigan spoke at last falls conference and was consistent with EPA on health impacts of pesticides I can speak with him in advance about Zika. I really can't disinvite him. I thought your concern was not paying his travel expenses which we are not.

Judith, This agenda does not line up with our discussion related to participation. I think you can expect messages that are not in alignment with EPA's view and CDC's science views. Jim
